
THE B.O.B. DECISION BLUEPRINT™

Reflection. Ownership. Action.

13. Who currently influences your financial decisions, and are they helping you think long-term?

SECTION 3: THE IDENTITY DECISION

Personal Contract

The Player Profile I reflected most today:

The mindset or habit I refuse to carry into my real life:

The identity I choose to build starting today:

THE COMMITMENT

I understand that financial literacy is not just information.
It is a mentality.

It is the way I think before I spend.
The way I prepare before opportunity arrives.
The way I respond under pressure.

I understand that opportunity does not create character. It reveals it.

Just like becoming a successful athlete requires consistent practice, discipline, preparation, and intentional habits, building financial strength requires the same level of focus and commitment.

I choose to think long-term before acting short-term.
I choose preparation over impulse.

I choose systems over excuses.
I choose discipline over hype.
I choose to build before I flex.
